

WebDT 360

Digital Tablet
for High Performance Wireless Computing

WebDT 360

DT Research designs and manufactures a comprehensive line of network-ready information appliances, enabling secure and reliable access to the Internet and applications, anytime, anywhere. The *WebDT 360* wireless tablet is more dependable than a laptop, and offers a larger display than a PDA. Ideal for mobile computing, the *WebDT 360* is easy to use and integrate with other systems.

The Product

The *WebDT 360* features the integration of a brilliant 8.4" touch display over an efficient AMD Geode™ processor within a thin, light, durable package. Designed for network and information access, the *WebDT 360* offers a choice of operating systems, wireless LAN and WAN support, and Citrix ICA and Microsoft RDP client/server computing protocols. Engineered with the latest security advancements, the *WebDT 360* protects your data with an integrated fingerprint reader. With a stylus-activated touch screen, on-screen keyboards, and desktop cradle, the *WebDT 360* performs in the classroom, in the warehouse, and in the field. A variety of VESA mounting options for placement in vehicles, on moveable arms, walls, or mobile carts make this tablet adaptable to almost any environment. The *WebDT 360*: perfecting mobile computing for the real world!
